

# HOW TO USE THIS MAPSET

## Map Attributes

1. 2014 USGS Topo Vectorized Base Continuous, detailed topographic layers including contours, woodland cover, shaded relief, hydrography, transportation, urban areas and significant governmental unit boundaries.

### 2. Special Status Indicator

Notice of location within National Parks or Forest Service and BLM Wilderness Areas. Be aware of additional preparations needed before entering these areas.

### 3. Elevation Profile Chart

Chart visualizing elevation change against half mile marker reference points.

### 4. Scale Bars and Projections

Mile and kilometer scale charts.

### 5. Compass

True north and magnetic north declinations including degree difference calculated as of September 20th, 2017.

### 6. Map Information

Map number in series, section number by state, section description and mileage covered. Sections are marked on the page they begin heading Northbound, and described by their southern and northern access points.

### 7. Waypoints

Markers for physical features matching Guthook Guide's CDT App with corresponding Alternate IDs.

● Bridge	✉ Post Office
▲ Campsite	📍 Point of Interest
☕ Coffee	⚡ Powerlines Above
🔗 Dirt Road	📍 Ranger Station
🍴 Food	📍 Road X-ing
/Gate	🚂 Railroad X-ing
🛍 Gear Shop	쉼 Shelter
🛒 Grocery	📍 Town
ℹ Info	📍 Trailhead
👚 Laundry	📍 Trail Junction
🏨 Lodging	📍 Viewpoint
⚠ Monument	💧 Water
🅿️ Parking	💧 Water - Unreliable
㉔ Picnic Site	ⓘ Map Notes

The CDT Map Set was created to best serve the diverse user groups of the Continental Divide National Scenic Trail. They are designed for both print and mobile use, and are available in georeferenced PDF format for use in apps such as Avenza.

The information provided here relates specifically to the use of this particular mapset, and is in no way comprehensive of the resources required or needed by all trail users. For more information on preparing to hike, bike or ride the CDT, refer to our CDT Planning Guide at [www.continentaldividetrail.org](http://www.continentaldividetrail.org). If you find this mapset useful, please consider supporting our work by donating to CDTc or becoming a member.

### 8. Latitude/Longitude Markers

Markers for grid measured in degrees-minute intervals according to UTM projection listed under scale bar.

### 9. Half-Mile Markers

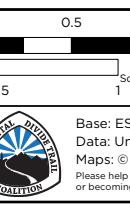

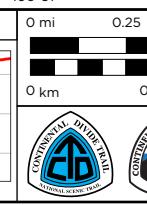

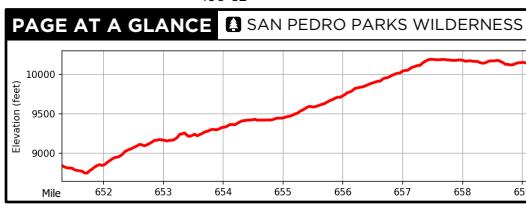

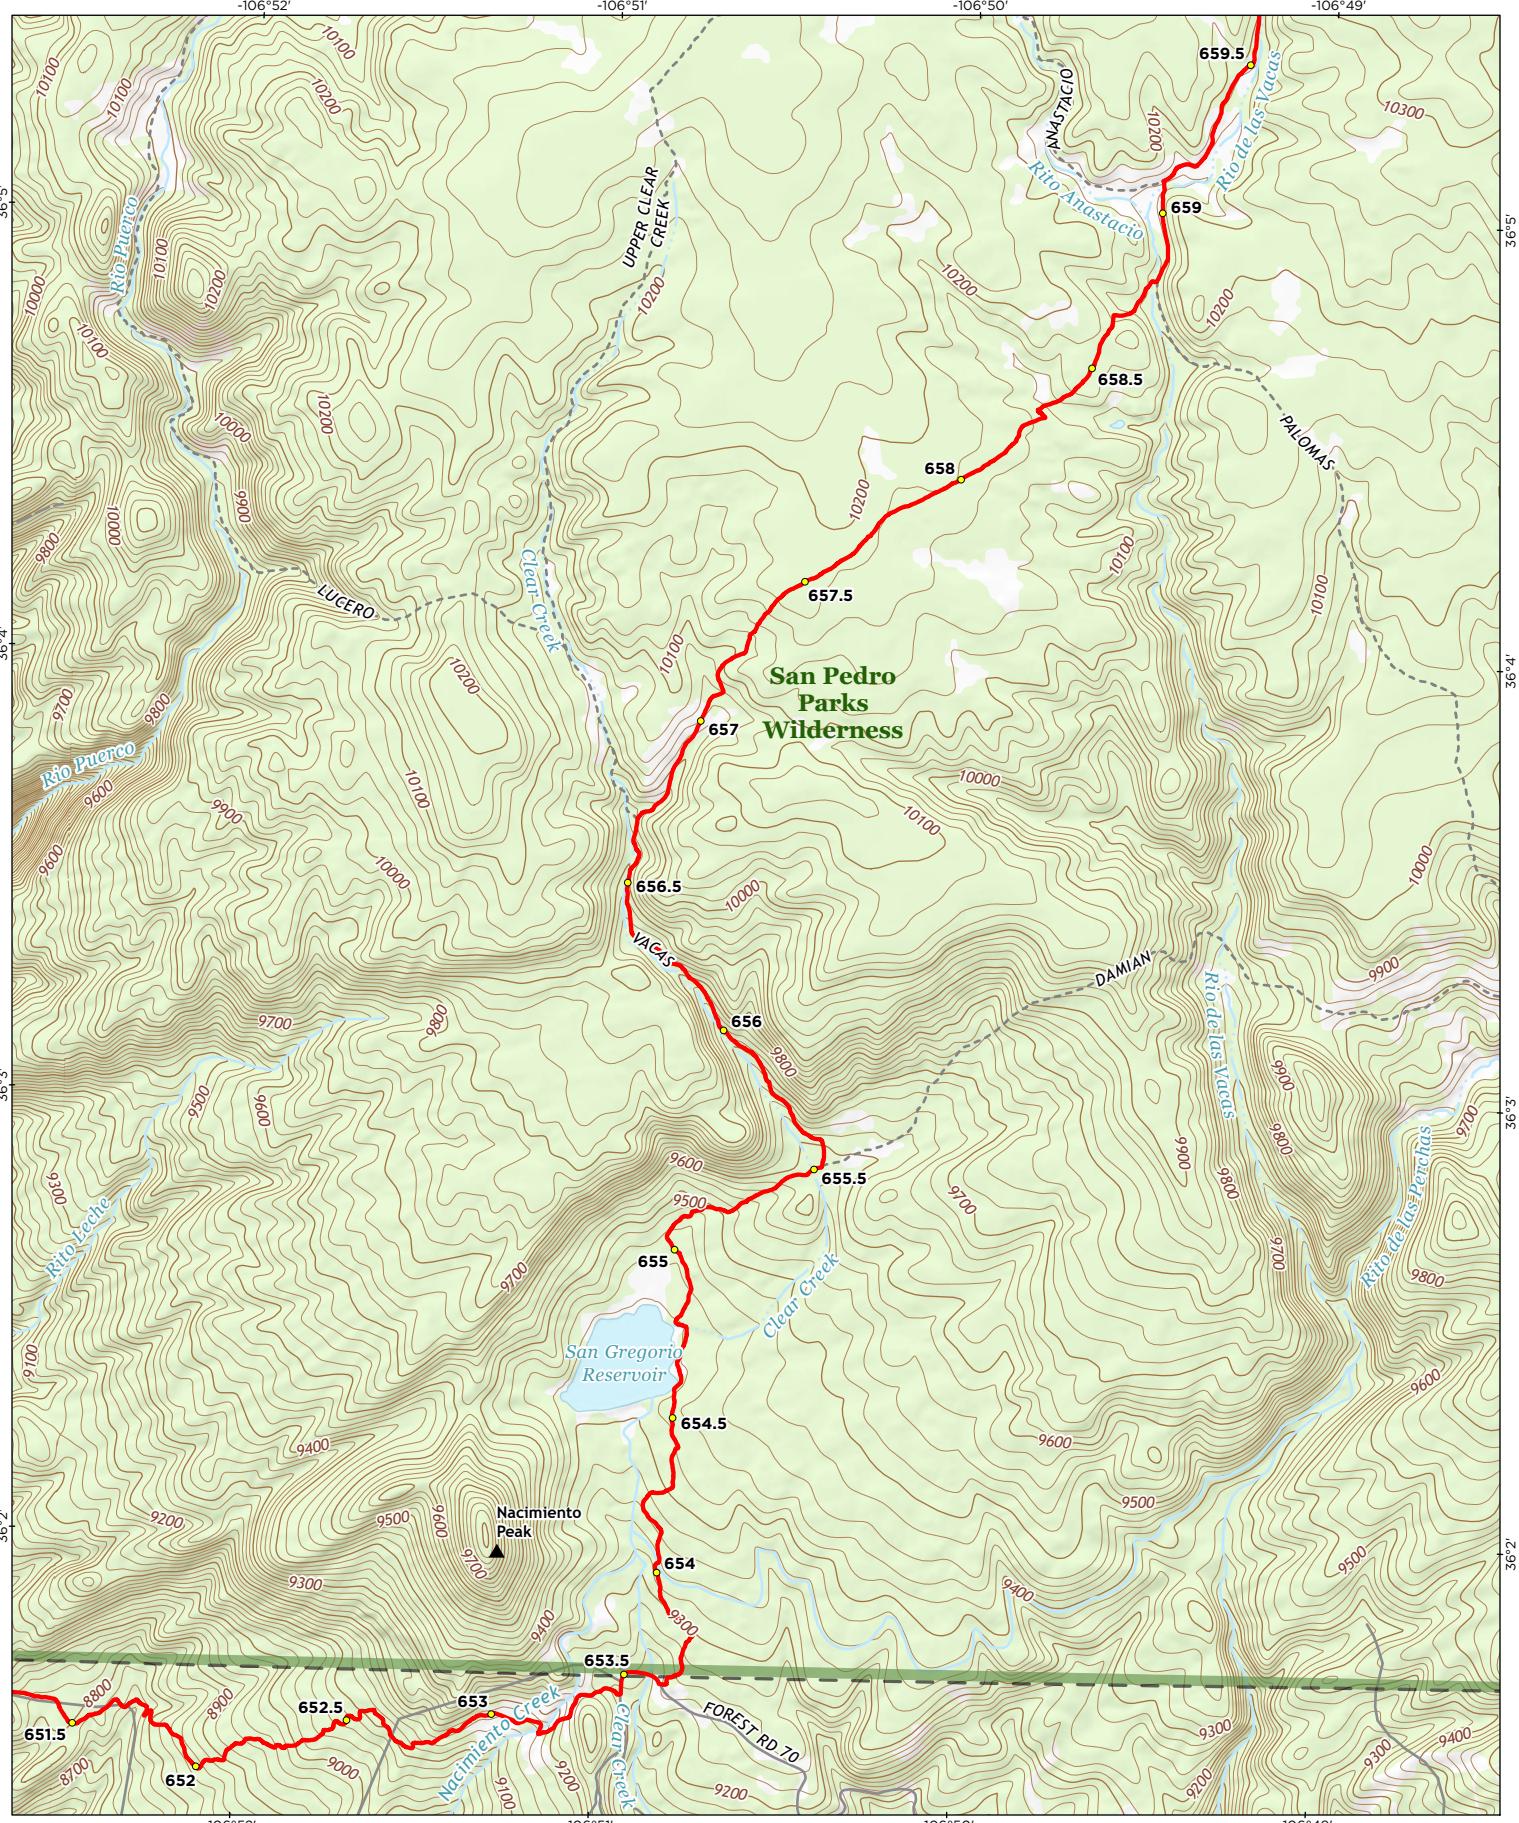

Reference points for trail mileage by state calculated in an NAD 1983 Transverse Mercator projection. Do not refer to actual physical features or waypoints.

### 10. Official CDT line and Other Trails.

Line alternating between red (trail) and black (road) marking the official CDT route as deemed by the US Forest Service and CDTc. Other trails include alternates and connecting trails.

- Official CDT Route
- - - CDT Gap Route
- · - Alternate CDT Route
- - - - Other Trails

Official routes are current as of the publishing of this mapset.
